

### **Organizer Information**

Surname (Family name, Last name): Okuda

Given name(s): Hiroyuki

Department: Green Mobility Collaborative Research Center

Affiliation (University, Organization, Company): Nagoya University

E-mail Address: h\_okuda@nuem.nagoya-u.ac.jp

### **Session Information**

Session Name: Smart mobility and human factor

Abstract for the Session:

Please write 200 words of abstract.

Advanced driver assistance systems (ADAS) and autonomous vehicle control system are one of the fastest-growing field in automotive technologies. At the same time, analysis of human driver's behavior plays an essential role in order to design a human friendly assistance and autonomous system. This session invites technical papers approaching a new technology or a fundamental investigation of human behavior towards a next generation safety, reliable and human friendly vehicle.
