

**Organizer Information**

Surname (Family name, Last name): Hotta

Given name(s): Kazuhiro

Department:

Affiliation (University, Organization, Company): Meijo University

E-mail Address: kazuhotta@meijo-u.ac.jp

**Session Information**

Session Name: Applications of Computer Vision

Abstract for the Session:

Please write 200 words of abstract.

Computer vision techniques are widely used in robotics, cars, microscopes and cell phones. In this session, we discuss new applications of computer vision and the problems of computer vision in practical applications. Of course, theories and algorithms to improve the accuracy and robustness are also in the field of the session.
