

SICE International Young Authors Award Call for Applications

To the accepted paper authors of SII2023@Atlanta

The Society of Instrument and Control Engineers (SICE) aims to be a central society in the fields of measurement, control, and systems integration with an international presence, and is strengthening its cooperation and support with related organizations toward internationalization. SICE also focuses on fostering young researchers who will lead the next generation, and with the aim of encouraging young researchers in their academic and technological research and supporting their international activities. To achieve this goal, the SICE International Young Authors Award (SIYA) was founded in 2020 to recognize young researchers at major conferences and symposia sponsored by SICE. The award is given to authors who present papers at the International Symposium on System Integration (SII), one of the important events co-hosted SICE.
